

SCRUM Training Courses

The agile world of Project Management

SCRUM ...

- is a philosophy, a model, a method
- is based on the agile manifesto (Ken Schwaber, Jeff Sutherland and others)
- represents a scalable project management method that can be applied to different project types and project scope
- is an internationally recognized agile method and allows people to be certified in different SCRUM roles

Courses

Together with SCRUMstudy®, Centerline Management Consulting offers SCRUM specific e-learning and classroom trainings in German and English:

For **beginners** and people who want to get free information about SCRUM:

- SCRUM Fundamentals Certified (SFC™)

For **project managers** and people who would like to perform the role of SCRUM MASTER in the future:

- SCRUM Master Certified (SMC™)

For **executives, product managers and product managers** who would like to take over the role of PRODUCT OWNER in the future:

- SCRUM Product Owner Certified (SPOC™)

The free **SBOK™ Guide** (SCRUM Body of Knowledge) is the basis for all trainings and certifications

Target Group

- People who want to develop or deepen their knowledge about SCRUM
- Beginners, project managers and executives who want to develop or certify themselves in SCRUM.

SCRUM Fundamentals Certified (SFC™)

The entry into the agile world of project management

- The course is tailored to people who want to learn more about SCRUM.
- You will learn the key concepts of SCRUM, which are defined on the basis of the SBOK™ Guide.
- In addition, you will have a basic understanding of how you successfully implement projects through the SCRUM framework.
- The final examination gives you proof that you have acquired basic knowledge of the SCRUM framework.

Content

- Introduction to SCRUM
- SCRUM Overview
- The SCRUM principles as formulated in the "Agile Manifesto"
 - Individuals and interactions over processes and tools
 - Working software over comprehensive documentation
 - Customer collaboration over contract negotiation
 - Responding to change over following a plan
- SCRUM processes

Exam procedure

- Multiple choice
- 40 questions per exam
- No "negative points" for wrong answers
- 60 minutes duration
- Online exam
- Exam language: English or Spanish

Target Group

People who want to develop or deepen their knowledge about SCRUM

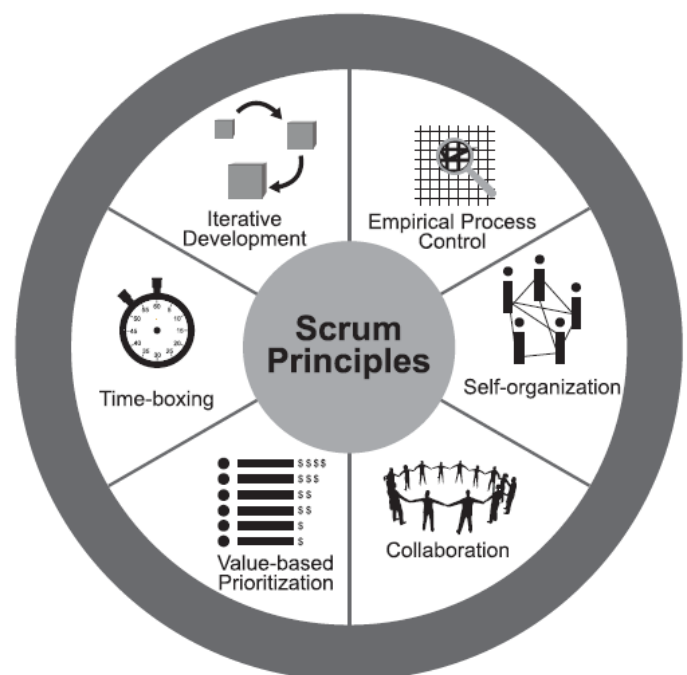

Fig.: The SCRUM principles
