- Establishing a sustainable Project Management Culture
- Project Management Methodology
 - Waterfall (PMI, IPMA)
 - Agile (SCRUM)
- Definition of Project Management Roles, e.g.
 - Portfolio-, Program-, Project, Product Owner
 - Portfolio-, Program-, Project Manager
 - Scrum Master, Scaled Scrum Master
 - PMO
- Single Project Management
 - Organizational Framework
 - Single Project Management Processes
 - Assessment, Training, Coaching for Project Managers
 - IT Support for Single Projects
- Multi Project Management
 - Organizational Framework
 - Multi Project Management Processes
 - Resource Management
 - IT Support for Multi Project Management Reporting
- Continuous Improvement and Exchange of Know How

Target Group

Project- and Process oriented Organizations with:

- Strong interest and need for development and continuous improvement of an efficient and stakeholder- oriented project management system
- Deficits in the co-operation between line and project organization
- Demand for harmonization and standardization of existing project management systems and cultures

Approach

Multi-level structure from single to multi project management in the form of internal programs / projects with top management commitment

Duration / Cost

- Depending on scope and maturity of existing project management system
